

Instructions and Notes:

1) *Overview of QHP Landscape files*

This website contains plan information for New Mexico, a State-Based Marketplace state that is using the federal application system for the individual market:

- Medical plans in the individual market
- Dental plans in the individual market

2) *Identifying plans based on geography and plan criteria*

To browse for a plan by specific data fields, click on the icon at the top of the column for a specific field of interest such as state, county, or metal level. For example, to select a specific county of interest, select the county name from the drop-down menu in the second column and click "OK" when done. The file will filter the data and show plan information only for the selected county. Multiple data fields may be selected for filtering and browsing at one time.

3) *Premium Information*

Premium amounts do not include tax credits that will lower premiums for many consumers applying for insurance, specifically those with income up to 400 percent of the federal poverty level.
